GE DISC FILES FOR 516 PROGRAMMING

The GMAP assembler will be put on disc on the GE645. The following information pertains to this software:

516 assembler	516ASM098002	2 links
516 post-processor	516PPR098003	1 link

Job Number - M1085

Box Number - M287

Case - 39395-100

The deck set-up for running a 516 assembly is as follows:

```
1 8      16
$ IDENT  [usual info]
$ SELECT 516ASM098002
[symbolic deck]
$ SELECT 516PPR098003
$ ENDJØB
```

Several decks may be assembled in one run; each deck is surrounded by the pair of \$ SELECT cards shown above.
